OUTPOURING OF THE WEALTH OF ISRAEL IN GOTHAN - MARRIAGE OF A WEALTHY
JEWESS TO A HEBREW MERCHANT.

Yesterday will not soon be forgotten among those of our population who proamong those of our population who profess the Mosa'c faith and enjoy the reputation of being the possessors of wealth, or at least, a comfortable competency. For weeks among this "apper circle" of the Israelites of New York the coming marriage of the daughter of one of the millionaires of their denomination was being talked about, and great expectabeing talked about, and great expecta-tions were raised by many tongued Dame the liberality of ornamentation which were to be exhibited on this "the most interesting occasion." Rumor as to the splendor, the wealth and

interesting occasion."

The lady was Miss Pauline Schloss, daughter of Mr. Moses Schloss, of the firm of Schloss Brothers, of this city; and the gentleman who took Miss Pauline unto himself as his wife, was Mr. Sigmond H. Stonewell, of Cheyenne in the Construction of Wagning.

The wedding presents sent to the house of the bride's parents were very numerous and costly. It is not usual among the Israelites to give on such occasions jewels or precious stones richly set for personal ornament. The practice has been and is wisely kept up to give things useful for the household, only the material changes with the wealth of the giver and the position in society of the receiver. The presents to the bride yesterday were over two hundred, consisting of tea sets, dinner sets, ice cream sets, and similar articles for the house, the aggregate value of which exceeds \$10,000; one tea set alone, having been purchased at Tiffany & Co's, cost over nine huadred dollars.

The ceremony was performed at the Temple Emanuel, on Forty third Street and Fifth avenue. The Church was crowded almost to excess, between and two crowded almost to excess, between and two
three thousand persons being in attends
ance. This was mainly because Mr.
Moses Schloss, the f ther of the bride, is
one of the most prominent and popular
members of the church.

Rev. Dr. S. Adler, rabbi or rector of
the congregation, officiated As it was
the first marriage celebrated in this new
and subendid temple. every care was

and splendid temple, every care was taken to have it come off with eclat, and this was another reason why so many thousands had assembled to witness it.

The bride, attired in white satin and enwrapped in a veit of costly lace, was led up to the chancel by her father; the groom, Mr. Stonewell, having no relatives in this country and his parents still being in Germany, was accompanied by Mr. Louis Danzig of this city. The following formed in procession as bridesmaids and groomsmen: — The Misses Sallie Nordlinger, Rachael Walter, Florine Walter, Lena Walter, Leonora Walter, Lottie Smith, Lena Rosenfield and Henrictta Sondheim; and the Messrs. Israel The bride, attired in write satin and enwrapped in a veil of costly lace, was led up to the chancel by her father; the groom, Mr. Stonewell, having no relatives in this country and his parents still being rietta Sondheim; and the Messre. Israel M. Schloss, brother of the bride; Isaac Bloom, Simon S Backman, Simon Schaefer, Simon N. Sondheim, Sigmund Reiss. Joseph Bloom, H. Eisfelder, Simon Dan-

zig and Louis Hasse.

The ceremony was very plain, simple, yet duly solemn and impressive. Many of the old customs of the orthodox Jews were omitted, as the standing of the bride and groom under a canopy, the offering of a glass vial of wine to the bride. which she drinks and then throws on the floor, to be broken by stamping upon it, as a token that as the vial is eternally rent, so the union then formed shall be eternal. All these ceremonies of the orthodox Church were omitted, and after a hymn, sung by the choir, a short prayer was said, followed by a solemn address to the bride and groom by the minister upon the religious and moral duties the engagement of marriage imposes. With the vow of eternal troth and faithfulness, the groom handed to his bride the ring, and while pronouncing a similar vow, the bride

placed the ring on her finger. A prayer followed by the priest, who, at the conclusion, blessed the newly-weeded pair,

placing his hands upon their heads, and a

The family and all guests specially in vited to the dinner then entered their carriages, and proceeded to Trenor's Lyric Hall on Sixth Avenue, near Fortysecond street, where dinner for over 150 persons had been provided. The company were seated at about five o'clock, the orchestra of Professor Reitzel enter taining the assembly with operatic mor-ecaux from Mozart, Beethoven, Meyer-beer, Halevy, Offenbach, Lortzing, Herve the laymen in humorous and the revers ends in earnest exhortations.

The whole affair concluded with a

splendid reception in the private parlors of Lvric Hall and a ball in the large hall, at which nearly a thousand invite guests participated.

AN AFFECTING SCENE. -At the theatre in Doual, during the first performance of offenbach's new operatto, a young actress, who appeared for the first time, was hissed. She turned deadly pale, drew a poignard from her bosom and tried to stab herself. Fortunately the other actors succeeded in wresting the weapon from her hands. The performance were the proper processed to the part of the performance were the property of the performance were integrated for helf an hoar. was interrupted for half an boar, and when the curtain rose again, the manager appeared and said to the highly excited audience that the young actress would reappear, but he begged them not to insult her; she was highly talented, and that a little encouragement given to her would at once elicit the full splendor of her talents, The gallant Frenchmen her talents. The gallant Frenchmen burst into deafening applause when the young girl come forward again, and oncored the first air which sho sahg in a tremulous voice. This mark of success visibly animated her courage, and she chieved a great triumph. I was afterwards as ertained that she had gone on the stuge to support her old mother, and the failure of her debut would have ex-posed them to extreme poverty. Hence her despair when the hissing burst forth.

#### Miscellaneous.

An interesting incident is told of the illness of the Duke of Brabant. The young invalid had a great passion for music, and much of the long suffering which has excited much of the long suffering which has excent such just admiration has been due to the soothing effects of Orpheus. His mother, perceiving that he had a special taste for the harp, resolved that none but herself should furnish him with that distriction. In the mids: of her melancholy duries the has found time to learn the instrument, and now plays

well.

The Papal authorities recently demanded the extradition of four Romars, who were implicated in the Aiani dair. During the melec a Pontifical Zonave was killed, and the Pon itical Government make the demand on the ground of the committal of a crime against common law. But the Iudian Government has decided that the not was political offence and therefore rejected the relitical oflence and therefore rejected, the re-

#### Is Health Worth Having.

If it is protect it. It is a jewel as easily lost as virtue and in some cases as difficult to recover, Nature, in our climate and especially at this season requires to be occasionally reinforced. But everything depends upon the tonic used for this purpose. The medicinal unctures all of which are based on common algohol are danwhich are based on common alcohol are dangerous. Quinine, as everybody finds out who takes much of it, is a slow poison. One safe protective from all unhealthy atmospheric influences exists, and one only. This powerful preventative is HOSTETTERS'S CELEBRATED STOMACH BIPTERS, a compound of the purest stimulant ever manufactured with the most effective tonics alteratives regulator and depurators that chemistry has yet extracted from the botanical kingdom. Convalescents, languid and feeble from recent sickness, will find the Bitters an incomparable Restorative not disagreeable to the taste, and eminently invigorating. No other stimulant produces the invigorating. No other stimulant produces the same effect as this Stomachic. It does not excite or flatter the nerves or occasion any undue artificial action; but at once soothes and strengthens the nervous system and the ani-mal spirits.

More than 400,000 of these watches are now speaking for themselves in the pockets of the people-a proof and a guarantee of their superiority over others.

The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches at a price which ren ders competition futile, and those who buy any other watch merely pay from 25 to 50 per cent. more for their watches than is necessary

We are now selling Waltham Watches at ess prices in greenbacks, than the gold prices before the war. There is no other manufac-ture of any kind in the United States of which this can be said.

These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watchmaking originating in this country, or in Europe, only those were finally adopted which severe testing by the most skilful artisans in our works, and long use on the part of the public, demonstrated to be essential to correct and enduring timekeeping.

Among the many improvements we would

The invention and use of a centre-pinion of peculinr construction, to prevent damage to the train by the breakage of main springs, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Fogg's Patent pinion as eing the best and faultless

Hardened and tempered hair-springs, now miversally admitted by Watchmakers to be the best, are used in all grades of Waltham

All Waltham Watches have dust-proof caps protecting the movement from dust, and lessening the necessity of the frequent cleaning necessary in other watches,

Our new patent stem-winder, or keyless watch, is already a decided success and a great improvement on any stem-winding watch in the American market, and by far the cheapest watch of its quality now offered to the To CALIFORNIANS and others living in

portions of the United States where watchmakers do not abound, watches with the above mentioned improvements which tend to insure accuracy, cleanliness, durability and convenience, must prove invaluable.

Every watch bearing the trade mark of Waltham, is guaranteed to be a horoughly reliable timekeeper. To prevent imposition, buyers should in-

ariably demand a certificate of genuineness. The trade supplied by Messrs. R. B. Gray & Co., San Francisco, Cal., and generally for sale at retail by all respectable dealers.

J. FRIED,

Saturday Morning, April 3, 1869. THE necessity for change in our system of Government is admitted on all sides; but the character of the change is yet undeveloped. That an early modification will take place, no one doubts, because it must come. Under these circumstances there can be no harm in canvassing the various probabilities. Our readers are aware that there are gentlemen at home who have been and are quietly doing their utmost for this Colony. They do not desire to be prominently known in the matter, hence we have heard little; but we believe their efforts will be none the less effective. It is generally known that twelve months from the present time. Governor Seymourgoes home; and we do not think that our citizens are inclined to continue the present state of things, by praying for the appointment of a successor who will tread in His Excellency's footsteps, and accept the same emoluments. This, it seems, is pretty well understood at home, and we think that in view of the early termination of the present system by the proximate departure of the present incumbent of the gubernatorial chair, we can fully account for the apparent want of solicitude on the part of the home authorities in the very inconsistent position we hold with our present cumbeous form of Government. Need we be surprised, then, if some of the proposed alterations to be made at the expiration of the term for the stay of Governor Seymour should have oozed out? And it is with a sense of relief that we refer to an item in our news columns in which a part of the particulars of the possible regime is stated. It would appear that a man of good business capacity and experience has been recommended by friends of the Colony for the Governorship at a very moderate salary compared with the present disproportionate amount paid to Mr. Seymour, who, with every desire, no doubt, is provented by the peculiar character of his instructions from fills ing the position in such wise as to give satisfaction to the Colonists. We further learn that it is proposed to arm the new representative of the Crown with a carte blanche by which he will be empowered to reduce the official staff to such reasonable dimensions as shall combine efficiency with an expenditure commensurate with the services required and the taxable means of the Colony. It must be borne in mind, if we have urged immediate confederation, that we have done so in perfeet ignorance of possible relief from the Mother country, so that we might calmly mature our terms with the Dominion, freed from the terrible pres sure that the present critical state of things involve. Indeed, such were the feelings produced by the apparent callousness of the Executive now ruling that we should have hailed any change with complacency, The whole position, however, is changed, and the light is becoming visible in the ditance; our sufferings may continue for some time longer, but we think there will be a termination soon; and, however disagreeable the continuance of existing burthens may be, we can look forward with hopefulness to an early deliverance. How readily will all our difficulties be resolved with an economical system of Government and a man at the helm possessing the knowledge and power requisite to guide the destinies of a commercial people. There will be no further difficulty respecting Drawbacks Bills, or modification of duties; it will only require to be shown that such things are likely to advance the interest of the Colony and they will be done without hesitation. We shall hear no more of necessary measures 1equiring to be immediately carried into execution, being sent to England for approval. We shall not be annoyed by having useful laws reduced to mere laws in name, or made wholly inoperative by retrograde officials; the days of obstructiveness are so nearly concluded, that we have no terror in regarding the short period remaining to the present system inflicting any permanent injury on the Colony. On the other hand, coming relief to commerce will encourage our merchants to pursue their avocations here, satisfied that if we do not return to our Free Port, we shall have such modifications as to render it unnecessary and Confederation, when it comes, will find British Columbia preas a bankrupt and a supplicant, but as

Lgons vs Stewart .- This case was proceeded with yesterday. The evidence for the defence being continued, Mr Walker objected that there was evidence to show Mr Robinson had any authority to sign the agreement with Lyons, it absolutely showed nothing that would entitle plaintiff to the amount claimed.

J. R. Stewart, defendant, sworn-Am merchant on Wharf street, Victoria; had a conversation in August, 1858, with Mr. Lyons in relation to the ship El'en; I told him Capt. Loudon had written to me in respect to the crew for the ship Ellen; "can you supply them?" Lyons replied that he could supply a "bully" crew, but they would be expensive as some other vessel wanted them; told him that I had nothing to do with the price or the engagement, and if he wanted to make a proposition he had better write to the Captain, and if he gave me a letter I would enclose it to the Captain: he sent the letter to me and I enclosed it; had no connection with the ship; had no authority from the charterer; the conversation occurred before the vessel came over from Port Ludlow; she arrived here on Sunday, 6th September; on Monday, 7th Sept., Capt. Loudon came to my office; I did not see Mr. Lyons till Sunday, 13th September; I cannot recollect whether I had any conversation with Lyons, excepting the conversation stated first; saw the contract accepted by Robinson on Tuesday the 15th; that contract was not written in my presence; I was not in Victoria on the 9th Sept; I was in New Westminster from the 8th to the 12th; never authorized any one to sign such a document; the conversation on Sunday, the 13th, at 12 o'cock at night, was eimply, Lyons told me that Capt. Loudon was drunk and he recommended me to shanghai the captain on board; I. refused, as he was the captain on board; I, refused, as he was not in a fit state to take charge of so much property; he then produced a receipt which was signed by the captain for 13 men; he said, "don't you think I am all right;" I said I could not say; I never said, "I wish I had never seen the captain or the ship; he never warned me if something was not done that night something would go wrong with the ship; the ship was ready to go to sea; I saw Lyons talking to the captain on Monday merung near the saloon of the former; I asked the captain why he had not gone to sea; he said he was "bilked" on Monday morning near the saloon of the former; I asked the captain why he had not gone to sea; he said he was "bilked" by the man Lyons and was after mu; I sail the matter had become so serious that he must not go on board until I had time to communicate with San Francisco by telegraph; I told Lyons what I had said to the Captain, I never saw the Captain afterwards. About noon of that day Lyons called, he said the remark I had made about the telegram had sent the Captain of; he denied having assisted the Captain of; he denied having assisted the Captain of; of S50, I told him I did not know anything about it; Robinson came in at that time and I then left. The note was dated the 14th. Saw Lyons on the following day, he presented an order signed by Mr Robinson, I told him I would not pay it as Robinson had no authority to sign my name; that he had not supplied a crew for the ship, and told him I believed the receipt he had shown me for the crew was a forgery. I did not tell Lyons the note was all right and to call again to mor ow. Lyons applied frequently afterwards for paymeat; told him it he would no over to Port Townsend and tell Lyons the note was all right and to call again to-mor ow. Lyons applied frequently afterwards for payment; told him it he would go over to Port Towosend and put a crew on board the ship that I would

it he would go over to Port Townsend and put a crew on board the ship that I would pay him, but not otherwise.

Cross-examined,—Carry on business by mysilf; Robinson is my clerk; never, expected and the pay him and the pay yond the usual course of business; Mr. Robinson did not inform me that he had accepted anything on account of the Ellen; never heard of the acceptance till 16th Sept; on the Sunday night Lyons said something about the Fly getting up steam; on Monday the Capt said if he could get two more men he could go to sea; he was sober; 1 wrote to the owners reprensenting the conduct of the Capt, the has since been dismissed; Monday 14th, Irecommended the Captain not to go aboard Legis, no massing over distinstance in montay 18th, I recommended the Capitain not to go aboard because he had been drinking. I did not know anything about the note for \$180 until action was commenced. I believe the after the action was commenced. I believe the \$50 and \$170 were paid on my account, and to Robinson as some of his salary. He might have drawn on account of that. I never knew that the mate had signed for 13 men. The fraud of which I complain is that Lyons claimed payment for men deficient in quantity and quality. I am authorized to defend this action by the owners. The Doputy Sheriff sued on the two notes; I believe Austin was the holder of the notes without value. I authorized the proceedings on the notes, but did not direct them; proceedings were had upon the notes to make Lyons a bankrupt. Know Greenbaum; know nothing about a note for \$150. I think any action

tween an advance note and the note on which I am sucd is that the first is for one man and the latter for a number. I was in the habit of leaving blank checks, which Mr Rabinson filled up.

the habit of leaving blank checks, which Mr Robinson filed up.

J. D. Robinson, sworn.—Am a clerk in Mr. Stewart's office and remember of Mr. Stewart going to New Westminster. I bad an interview with Mr. Lyons and Capt. Loudon on the 9th of September. They brought in the paper produced, which was part of a full sheet of foolscap paper; on the upper portion was the contract by which Mr. Lyons bound himself to provide a certain number of men as crew of the Elleo. I tore the other portion of the paper off and handed both back to Mr. Lyons; the agreement on the other portion was with Capt. Loudon, and I saw Lyons sign it. The contract written on the other portion of this document was fulfilled 24 hours after the sailing of the ship. He asked hours after the sailing of the ship. He asked me to accept the contract. The Captain said it was all right, and I accepted the or-der. I told him the contract was to be returned to me signed by Captain Loudon. Lyons, on the 10th, asked me for money on account of the contract, and I relused it until the document was endorsed by Loudon; if I gave him money it must be on my own responsibility; gave him \$170 for which be gave me his note; the money was paid by cheque signed by Mr. Stawart; did not discover till afterwards that the note did not discover till afterwards that the note was for \$180; I only gave him \$170; nover asked him for interest; the other note was paid to Mr. Lyons; when I came into the office I saw Stewart handing the note back to Lyons. On Tuesday, 16th, Lyons presented the order dated 9th Sejtember for payment; I asked him to produce the contract signed by Capt. Loudon; he produced the receipt, which I decined, telling him I would not pay until he brought the contract as agreed; saw the Ellen at Port Towtsend about the 20th, about the 20th.

Cross-examined by Mr. Robertson.—Told Mr. Stewart about the acceptance on Monday the 14th; I am sure he knew of it on Monday; I am not sure Mr. Stewart saw Capt. Loudon before he saw me; the \$170 was a personal transaction; I can't say whether I charged mystlf or not; afterwards substituted the owners; the \$180 was pail by me to Capt. Loudon as a bribe to induce him to sign the agreement. Mr. Slewart was ac-quainted with the circumstances afterwards; he was told about the bribe by Capt. Loudon I swear I prer got a cert for my action in the matter. It was for the benefi of the owners; I attended to Mr. Stewart's business; Mr. Stewart repudiates my authority to sign the contract; he did so on the 15th Sept.; he said I should not have accepted it—he did not say for what reason; debited the ship with \$170; Lyons was sued for \$180; I endorsed the note to Mr. Drake: I got no value for it. I gave the note to Mr. Drake. no value for it. I gave the note to Mr. Drake, after this action was brought on; the day I gave the money to Lyons I received it back from Loudor, I debited myself with the money and afterwards cancelled it. The captain only gave me \$30 on the last note and I made up the \$20 out of money which I took out of Mr. Steward's cash bax on my own account, I had no jugerts! in advancing the money. Lyons said to me, "well the money as all right if the mon are shipmed?" ing the money. Lyons said to me, "will the money be all right if the men are shipped?"

Isaid, yes.
Re-examined-It was at Capt, Loudon's money to Lyons.

request I advanced the money to Lyons.
Loudon told me Lyots was going to repay
him \$200 with which the ship was credited.
The evidence of Wm. London, taken 13th
February 1869, was here put in:—I arrived
in Royal Roads on the 6th Sept. Consulted in Royal Roads on the 6th Sept. Consulted with the agent of the ship who recommended me to Lyons. Saw Lyons who told me he had a crew, but the ship was detained until 11th, and then the men were put on board by twos and threes, drugged and insensible. On weighing anchor, only two men being able to reef and seer, I was obliged to run to Port Townsend. All the men ran away.

150 roll townsend. All the meet an away.

I gave Lyons the usual shipping n.t.p.:

Wm. Lyons recolled—Saw the mate sign
a document produced; the receipt for the
men was sent to the chief mate, and subsequently returned to mesigned. The captain saw all the men before they went on board. They were taken to the Custom House and signed articles They all went on board. John Livermore was on shore afterwards.

Mr. Walker addressed the Jury for the defence: Plaintiff alleged that defendant assumed the responsibility by the document assumed the responsion by the decement was made with Mr Stawart. Mr Stewart states positively that the second interview never took place. In weighing the evidence it must be remembered the description of house the pla thiff keeps, in which he him-seif states, he has the vilest scamps in the world assembled, the evidence of such a witworld assembled, the evidence of such a witness cannot be above suspecion. In relation to the acceptance, it must be remembered that Robinson was empowered to sign a common advance note, but not a document of the character of the one before the Court, involving \$1670. It was unlikely there was any agreement of such a nature unlies upon the condition that the men should be on board when the money was paid. It was not likely that Mr Stewart would enter into any agreement with a man like Lyons if he had no document to secure the completion of the contract. The evidence of Mr Robinson goes to show that anothen document existed, and the water-mark showed that the present document formed part of a much present document formed part of a much larger one originally. There could be no possibility of waking it appear that either the Captain or Mr Robinson attempted or were parties to any fraud; but Mr Lyons was depidedly committing a fraud as he had admittedly bribed the Captain. The learned counsel reviewed the evidence at considercounsel reviewed the evidence at considerable length, in which he adverted strongly,
to the character of the men shipped the
manner of their being put on board, and the
fact that the men could not answer to the
names called out.

The Count have adjourned until Mondan at

The Court here adjourned until Monday at 11 o'clock a. m.

ROYAL INSURANCE COMPANY ALMANAC -Messrs. Sproat & Co. have placed on our table the Royal Insurance Company's almanac for 1869. The book is elegantly illustrated and contains besides the calendar blank pages for the entry of memorands, obituary notices of Lord Brougham and Percy Mathew Dove, Esq. The last named gentleman was manager and actuary of the Royal Insurance Company for a period extending over nearly 24 years. The little book will be found both interesting and useful to the colonist.

St. Andrew's Church,-It will be observed that the dedication services of the new Church will take place to-morrow. Rev. Dr. Lindsley and the Rev. Mr. Aitken assist the Minister of the Church on the oca bankrupt. Koow Greenbaum; know nothing about a note for \$150. I think any action casion, it is proposed, we believe, that about a note for \$150. I think any action cach service be conducted by the three quite fair in such a case.

Re-examined, — The only difference be-

#### Interesting from the Mainland. Mr. G. Pearson, who left Barkerville

on the 8th of March, reports about six feet of snow on Bald Mountain and about 18 inches William Creek. Business quiet, stocks full. The winter had been open and many claims were worked throughout the season and yielded good pay. A project for the formation of a company of 100 members to prospect the Meadows, was on foot on William Creek. The projectors propose to locate 150 feet each and contemplate getting up a powerful steam engine for use in pumping out the water. No difficulty in getting down is anticipated. Seventy names were down when our informant left. On Canadian Creek in the Clear-Grit claim the tunnel was progressing favorably. The Davis company at Vanwinkle, on Lightning Creek, expected to start pumping and sinking on the 11th ult. Their machinery is among the best for the jurpose ever erected in our mines. Good prospects were obtained some years ago in the Davis claim, and if the machinery can master the water, the result will be "big." Colonial flour on William Oreck was 18c. 7 to for extra; beef, plentiful and good at 13c p tb, per qr., and from 16 to 20 cents retail. There was sleighing to within four miles of Quesnellemouth; below that point wagons are running through to Fort Yale. In the Green Timber there are five or six inches of snow; no snow at the Junction. The farmers at Williams Like were ploughing on the 12th. It is feared by the farmers that water for irrigating purposes will be scarce this season. On the North side of Pavillion Mountain there were about 18 inches of snow; on the South side, there was not a particle of snow, and the farmers in the vicinity were at work ploughing at Lillocet, Indian trade was brisk, and a great many Indians were rocking along the river bank, taking out from 75 cents to \$5 per day to the hand. The whole tribe appeared o have turned goldminers. Flour here is 7c. per lb; beans, 5c. A part of the mackinery of the Prince of Wales s'eamer had reached Seaton Lake en route for Quesnellemouth The steamer Victoria will be ready to run by June. At Cache Creek and Bonaparte the farmers were engaged in ploughing. At Tranquille river, Fortune & McIntosh have just completed their sawmill and flourmill, which were running satisfactorily. At Bona, parte, Cornwall Bros. were driving 400 head of splendid cattle to Hat Creek for grazing From Cache Creek to Fort Yale, the roads are in excellent order. From Yale, Mr. Pearson proceeded to New Westminster in a cance. The water fell two inches at Harrisonmouth four days ago. At this place, J. Donnelly has started an orchard. On the Sumas ploughing had commenced by Miller & Co., who are going extensively to to the dairy business. The farmers in the upper country are raising a great many hoge, and intend to supply the upper country with bacon

CONSECRATOR OF A CEMETERY AT NEW WESTMINSTER. - Yesterday (Friday) the Bishop of Columbia consecrated a plece of ground near Sapperton Church for a burial place. It had been pleared, neatly fenced, and is to be laid out with walks and planted. At a luture time it can be enlarged, a suffi. cient quantity of land having been included in the conveyance, The ceremony commenced by the usual morning service at 81,2 o'clock in St. Mary's, Sapperton, read by the Archdeacon of Columbia, after which the Bishop preached upon the doctrine of the Resurrection. The whole congregation then proceeded to the ground, saying, alternately with the Bishop, the verses of the 49th Psalm. On arriving at the ground the Petition was presented by Mr. Murray, Churchwarden of St, Mary's, and read by J. W. Armstrong, Esq., Churchwarden of Trinity. A hymn then sung in procession around the ground; prayers were offered; the sentence of corsecration read and signed, and the service concluded with the 100th Psalm and the blessing. The weather was fine and much interest was shown by all these who

were present on the occasion, THE SAN JUAN BOUNDARY, - The San Juan Island Boundary Treaty refers the determination of the line of the Boundary to the President of the Swiss Confederation. All correspondence, documents, maps, surveys, etc., relating to the subject shall be placed at his disposal within twelve mouths after the ratification of the treaty, The referee is to endeavor to educe the precise line of the boundary from the words of the treaty of 1843, but if unable to do so, is at liberty to determine upon some line which will, in his opinion, furnish an equitable solution of the difficulty, and be the nearest approximation that can be majo to the accurate construction thereof. The Minister and public agents of either country, at Berne, are to conduct the respective cases before the referee, who shall be requested to deliver his award as soon as convenient after the whole case has been laid before him, his decision to be final and conclusive, and carried into effect by Commissioners to be appointed to make the boundary.

AGRICULTURAL AND HORTICULTURAL SO-CIETY .- We would direct the attention of our teaders to the list of prizes to be offered at the forthcoming Agricultural and Horticultural Society's exhibition in September next. A perusal of the list ought to stimulate our Island farmers and florists to increase their efforts, so that they may the more successtully compete with the producers of the neighboring tenttory, who have been invited to take part in the exhibition,

COAL,-The Yile Examiner says that coal has been discovered in large quantities on the bank of the Nicholas river.

AN IMPORTANT MOVEMENT. - Governor Seymour's term of office will expire in March or April of next year, and a large number of the friends of British Columbia n Great Britain have joined in a movement to have some gentleman of mercantile experience and extensive knewledge of the Colony appointed to the position which will then be vacant. We violate no confidence when we state that it is proposed that the salary of the next governor shall be much less-say one-half that now paid-and that other and needed reforms and economies will be introduced and carried out with the view of a return to partial Free Trade, should the prayer of the memorialists receive a favorable answer. This movement is a most important one. It is quite evident that Confederation, although inevitable, is somewhat remote, and while we are waiting for the "wheels of time to quickly fly and speed the welcome hour," an immediate and radical reform in our system of Government in imperatively demanded by the interests of all

EARL RUSSELL'S LEITER ON IRELAND .-Earl Russell has published a third letter to Chichester Fortescue, M. P., on the state of Ireland. His lordship points out that it is now the duty, as well as the opportunity, of a liberal government to introduce large measurce for the good of the sister kingdom, and defends Gladstone against the accusation of having started the Irish question from a desire to obtain office. The noble Earl advocates the disestablishment of the Irish Church and the partial endowment of the Free Protestant, Presbyterian, and Roman Catholic Churches. Earl Russell then urges the maintenance of the present system of national education; and in dealing with the land question expresses his conviction that the ecclesiastical property might well be de voted to the improvement of the soil.

COLONIAL HOTEL ENLARGEMENT .- We BIE glad to observe that Driard of the old established Colonial has colarged and refitted his hotel for the accommodation of the summer travel. The brick building known as Clubhouse is now included in the hotel. By thi, addition eight spacious rooms and two handsomely furnished parlours are added to the hotel.

### EXTRAORDINARY QURE OF A COUGH.

The following letter has been received from WILLIAM BOARDS, Eaq., on extensive agriculturist and land agent, residing at Edmonton, Middlesex:

withink boths, had, and the contents are and land agent, residing at Edmonton, Middlesex:—

"Nightingale Hall, Edmonton.

"Dear Sir,—I have recently suffered much from a most violent cough, proceedin, from a tickling in my chest, which no remedy, out of many I resorted to, could allay. My head was constantly sehing, and my whole frame entirely shaken Having, seen the good effects of your Eslaum of Aniseed in several members of my family, I pur chased a small bottle, and, when going to bed at night, took a teaspoonful in two tablespoonfuls of water, just warm. The effect was immediate; it arrested the tickling in my chest, I slept well and arose perfectly restored in the morning, with the exception of deblity, arising from fatigue by incessant coughing for some days previous. My dough, entirely left me, and has never returned Having since heard of a lady in the neighborhood why for a long time had laboured under a most distressing cough, and who had resorted to every remedy within her knowledge, I sent the remainder of the bottle to her; and that long-standing, obstinate, and (as she thought) incurable cough, was perfectly cured. You are at perfect liberty to make what use you may please of this communication, as the contents are strictly true. I shall take every opportunity of recommending your inestimable medicine, feeling as I do fully assured of its efficacy.

PILLS.

Physician of the Marine Hospital
Dysentery, Diarrham, Kelnx, Wormst
From Dr. J. G. Green, of Chicago.
Your Pills have had a long trial in my practice
and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upor
the liver makes them an excellent remedy, wher
given in small doses for bitious dysentery and digrrham. Their sugar-conting makes them very he
of the data or convenient for the use of women ay
children.

Yours, J. V. Himes

From Mrs. E. Stuart, Physician and Midwife Boston.

I find one or two large doses of your Fills, take at the proper time, are excellent promotives of the natural secretion when wholly or partially an pressed, and also very effectual to cleanse it stomach and expel terroins. They are so much the typical period of the properties of the propert

my patients.

From the Rev. Dr. Hawkes, of the Methodist Pry.

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1866.

HONORED SHE I Should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, while ended in chronic rheunatism. Kowithstanding I had the best of physicians, the disease grew wgrw and worse, until by the ndvice of your excellest agent in Bultimore, Dr. Mackenzie, I tried yom Pills. Their effects were slow, but sure. By per severing in the use of them, I aim now entirely well

Billous Disorders — Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Fills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bidious complaints than any one remedy I an mention. I sincerely rejoice that we have at legitly a preative which is worthy the confidence of the yolesion and the people.

DEPARTMENT OF THE INTERIOR. Washington, D. C. 7th Feb., 1899;

Sin: I have used your Fills in my general and hospital practice ever since you made them, and dannot hesitate to say they are the best eathartie we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for demagements of that organ, Indeed, I lave seldom found a case of bitious discusses so obstinate that it did not readily yield to them.
